See notice of property for sale to settle a claim, by James M. Towles, Plaintiff. Parties interested will see the court notice of Anson V. Parsons vs. Pat-

Our confectioners and grocery merchants yesterday were quite busy supplying the heads of families. om all appearances, Christma will be enjoyed greatly in our midst.

Its hold is f. ail—its date is brief.

GOLDSBORO.—We spent the day yesterday in the rapidly growing town, we may say City of Golds-bore. We attempted to get in a word with our mercantile patrons of the city, but we found all hands so busy waiting on customers that it was impossible. Goldsboro is a fast, business-like place, and everybody seems to be thriving. There are several hotels in the city, and if all are as good as the Humphrey. S OME MEN ADVERTISE

A large quantity of cotton is sold in the Goldsboro market, and the farmers of that section find that the prices received net them as much as if sold in Northern marts.

J. L. Robinson, Speaker of House of Rep. R. F. ARMFIELD,

THANK YOU, BRETHREN.-We are indebted to our contemporaries of the Christian Advocate and the Hillsboro Recorder for the following compliments:

Newspaperiana.—We are pleased to see evidences of success in the Ral-eigh Daily News, which has recently been enlarged to a thirty-two column paper, making it the largest daily in the State. We are always gratified to note enterprise in any direction and more especially in the newspaper line, for it evinces a growing taste in our people for more and better mind-food. The News is a live papernow a "spicy" big journal—its edito-rial columns being well conducted by the chivalric Major J. W. Dunham, and the local page reflecting the activity and spice of the Chief, Capt. E. C. Woodson, whose untiring search a local item finds it hard work to escape. The NEWS is largely sought by advertisers and in every respect shows that it is meeting with

tavor.-Christian Advocate. The Daily News.-We have omitted to notice the enlargement and great improvement of this paper made necessary by a novelty in North Carolina journalism—a vastly increased advertising patronage and enlarged subscription list. The News has shown pluck and enterprise in all that it does, and has responded promptly and handsomely to 'he confidence exhibited by the public. Long may it thrive an evidence that Long may it thrive, an evidence that journalism sometimes finds its reward

RALEIGH IMPROVEMENTS.—The editor of the Hillsboro Recorder thus speaks of recent improvements

in this city:
"There is a great and continued improvement going on in this city, no where more marked than on Fay-etteville street. In fact the style and height of the buildings recently erected have totally changed its character, and altered the perspective. Seen from Yarborough—now of itself a magnificent pile—the Capitol which once dominated the street with lordly pride, now with Yarbo-rough in the fore ground, and the tall erections of the Citizen's Bank, the Fisher building, Andrews' and Williams on the one side, and Briggs', Williamson's, and Holloman's on the other, looks dwarfed, and humbled. Fine as they are, one fails to see the necessity of such sky scrapers as Andrews and Briggs have erected. But it pleases them, it improves the street, and it pleases the public, and I will not criticize ill naturedly."

CHRISTMAS THOUGHTS .- What Charles Dickens thought of a "Christmas Tree," is thus told by that versatile author and in his own peculiar

"I have been looking on, this evening, at a merry company of children assembled around that pretty German toy, a Christmas tree. The tree was planted in the middle of a great round table, and towered high above their heads. It was brilliantly lighted by a multitude of little tapers; and everywhere sparkled and glittered with bright objects. There were rosy-cheeked dolls, hiding behind the green leaves; there were real watches with movable hands, at least, and an endless capacity of being wound up) dangling from innumerable twigs; there were French-polished tables, chairs, bedsteads, wardrobes and eight day clocks, and various other articles of domestic furniture (wonderfully made in tin, at Wolverhampton) perched among the boughs, as if in preparation for some fairy housekeeping; there were jolly, broad faced little men, much more agreeable in appearance than many real men-and no wonder, for their heads took off, and showed them to be full of sugar-plums; there were

fiddles and drums; there were tam-bourines, books, work-boxes, paintbox, sweetmeat-boves, peep show boxes, all kinds of boxes: there were trinkets for the elder girls, far brighter than any grown up gold and jewels; there were baskets and pincushions in all devices; there were guns, swords, and banners; there were witches standing in enchanted rings of paste board, to tell fortunes ; there were tee-totums, humming tops, needle-cases, pen-wipers, smelling-bottles, conversation-cards, bouquet-holders: real fruit, made artificially dazzling with gold leaf; imitation apples, pears and walnut, cram-med with surprises; in short, as a pretty child before me, delightfully whispered to another pretty child; her bosom friend, "There was every-thing and more." This motley col-lection of odd objects, clustering on the tree like magic fruit, and flashing back the bright looks directed towards it from every side-some of the diamond-eyes admiring it were hardly on a level with the table, and a few were languishing in timid wonder on the bosoms of pretty mothers, aunts and nurses-made a lively realization of the fancies of childhood; and set me thinking how

of Convention : "Why is it now, after eleven years of peace, We see our people poor and disheartened, our fields uncultivated, our fences down, our cattle poorwhy is it we see so much idleness, so much confusion and discord; in a word, why is it we see all around us and throughout the bounds of our State, so little prosperity and so much poverty and distress? Let us strike a pistol ball was found, considerably at the root of the evil. It is the bastard Canby Constitution under which we have been laboring and groaning and eking out a miserable existence for so many years that is keeping us down. Under this Constitution it is impossible for North Carolina ever to recuperate—ever to be, as one of the glorious original thirteen which framed the General Government, it ought to be one among the proudest

and most prosperous of them all." A SINGULAR COMBINATION OF CHRISTMAS PRESENTS .- The urbane proprietor of the National Hotel, Col. Brown, knows how to take a joke as well as a Christmas present. Some unknown friend sent him yesterday morning from Salisbury, per Express C. O. D., a box of black cats. What disposition the Colonel will make of them we are not advised. At the same time he received as a present a barrel of Lynnhaven, Bay oysters from the celebrated Norfolk packers, Messrs. Phillips, Henry & Co. We opine what disposition will be made of the latter present, and returns thanks for an invitation to share it

LEGAL ADVERTISING .- The Piedmont Press inquires as to what has been done in the matter of legal advertising. This matter will be considered by the Legislature immediately upon its reassembling after recess, and we have every reason to believe it will be favorably considered by that body. The members have ascertained the fact that it is not intended to benefit solely the press of the State, but to a large extent the unfortunate class of persons who are sold out under decrees, and whose property is totally sacrificed because of the fact that the sale is not known even in the same neighborhood.

Masonic.—The annual election of officers, for the ensuing Masonic year, for Hiram Lodge No. 40, of this ci'y, took place on Monday evening last with the following result:

A. S. Lee, W. M. A. H. Winston, S. W. J. C. R. Little, J. W.

There being no change of the officers for the year just closed. The installation will occur on Monday

Colnel Manly has been residing in Texas for a number of years, but being in delicate health, recently passed through this city en route to New Yerk with the hope of benefitting himself.

A HOP AT THE BARRACKS.-We acknowledge an invitation to attend a hop to-night at the quarters of Company G, 2nd U. S. Artillery, stationed in this city. The Committee of Invitation is composed of Messrs.

The Washington Republican, with its accustomed disregard of truth and its fiendish malevolence when dealing with Southern affairs, has the following comment on the proceedings of the caucus of Southern Republican members of the House held

Saturday night:
"The 900,000 Republican voters represented by the caucus are now heard, and heard as a significant power within the party—a power which cannot and must not be ig-nored. They claim that the White League organization, embracing a great majority of the 8,000,000 of whites in the South, is now preparing for a separation of the country as they conspired for it in 1860 and '61. They also claim that the 4,000,000 of blacks, enfranchised by the North, are in danger of being absorbed by the superior intellectual strength of the capitalists of the South, and that, as is always the case, the laboring element of the section will soon pass under the control of those capitalists. This being done, the white and black races will combine to present to the North an aggregate strength of 12,-000,000 people demanding a separa-tion of the Government. When we remember that the war secession was organized and maintained by 400, 00 slave-holders, the magnitude of this new threatened combination become apparent. Could we afford to risk another war under the circumstances? With a great debt, with hard times upon us, and with the sad memories of the past to discourage us, it is certain that we would hesi-tate before re-opening the terrible wounds of civil strife."

A Singular Case. A young man in Wheeling, West Virginia, was carousing last New Year's Eve with a party of Friends, several of whom celebrated the occasion by a very careless and indis-criminate discharge of firearms. He was finally put to bed in a state of insensibility from intoxication, and his companions were at the time in such a condition that they did not notice he had been wounded. The next morning an ugly contusion was discovered over the left eye, which his family and a doctor, whom they consulted, agreed in pronouncing merely the result of a fall. A more experienced surgeon, however, visited him, and said that the wound appeared very much like a bullet hole He passed his probe through the hole into the brain. The injured man remained in a stupor for a short time, but soon recovered, and in two weeks was able to go about again as usual. He said he experienced no pain worth mentioning, but that his right arm felt very numb. He confessed, however, that he remembered that one of his companions had shot him. A few weeks ago he was at work as usual wen he suddenly fell to the ground and was carried home in a delirious state, his sane utterances being constant references to a terrible pain in his head. He lingered five days and then died. His brain was removed and dissected, and in the cerebrum,

skull and the interior of the head. ARKANSAS FINANCES.—The Arkansas Senate has passed the Senate bill for the issuance of \$25,000,000 of bonds, running thirty years, and bearing six per cent. interest, for the purpose of taking up the floating in debtedness of the State and to pro-cure money to pay the current expenses of the government.

Plaintif's Att'y. dec 24-lawsw

INSURED FOR AN HOUR .- In the suits of the Averill Chemical Paint Company against the American Central Insurance Company of St. Louis and against the Fire Association of Philadelphia, the plaintiffs recovered judgment against each for \$1,281 87. The first suit was the one tried, the other by stipulation being made to depend on it. It appeared that about 4 o'clock in the afternoon of December 6, 1872, a Mr. Rankin as agent of the plaintiffs went to Mr. Polly, the Brooklyn agent of the general agents of the Company, and arranged for an insurance for \$2,500 at 1½ per cent. to take effect at once. The premises caught fire about 5 o'clock, and the loss was about \$20,000. The premises were insured in 13 different companies, and the agents of the companies appointed a committee, of whom Mr. Polly was one, to adjust the losses. The share of the St. Louis Company was fixed at \$1,132.52. The defense was that the Company had expressly forbidden its agents to take any risks of the class known as specially haz-ardous and had directly rejected this risk, and that there was collusion between the plaintiffs and their agent in getting it accepted. The jury overruled those defenses.

The will of the late Mayor Havemeyer has been in the Surrogate's Office since December 10, probate having been delayed by the absence of Hector C. Havemeyer in Europe. It was admitted to probate Monday. It is very elaborately drawn, full of legal terms and provisions, and written in the best style of pemanship, with many ornamental head lines and letters. The value of the property left is estimated at from \$3,000, 00 to \$5,000,000. The only heirs are his widow and six sons and two daughters.

The appointment of ex-Gov. Parsons as District Judge for Alabama, will probably prove more aceptable than that of any other candidate that has been named for the place, as he has been identified with the politics of the State for many years. At all events, he is likely to leave a better record behind him than his predecessor in office, Judge Busteed.—N. Y. Tribune,

T H E S U N DAILY AND WEEKLY FOR 1875. The approach of the Presidential election gives unusual importance to the events and developments of 1875. We shall en-deavor to describe them fully, faithfully,

THE WEEKLY SUN has now attained a circulation of over seventy thousand co-pies. Its readers are found in every State and Territory, and its quality is well known to the public. We shall not only endeavor to keep it fully up to the old standard, but to improve and add to its va-riety and rower.

THE WEEKLY SUN will continue to be a thorough newspaper. All the news of the day will be found in it, condensed when unimportant, at full length when of moment, and always, we trust, treated in a clear, interesting and instructive/manner. It is our aim to make the WEEKLY SUN the best family newspaper in the world. It will be full of entertaining and appropriate reading of every sort, but will print nothing to effend the most scrupulous and deficate taste. It will always contain the most interesting stories and romances of the day, carefully selected and legibly printed.

The Agricultural Department is a prominent feature in the WEEKLY SUN, and its articles will always be found fresh and useful to the farmer.

The number of men independent in politics is increasing, and the WEEKLY SUN is their paper especially. It belongs to no party, and obeys no dictation, contending for principle, and for the election of the best men. It exposes the corruption that disgraces the country and threatens the overthrow of republican institutions. It has no fear of knaves, and seeks no favors from their supporters.

Its RESERVE secured for policy-holders, last July amounted to \$100,000; leaving a surplus of £212,000. Public attention is called to the fact that for every \$100 of liabilities, it has \$142 of assets. This unparatielled success should commend it to the people of this State. Headles, it has deposited \$150,000 for the exclusive benefit of policy-holders; and it now proposes to establish a local Board, and make loans on real estate security. JOB PRINTING.

The NEWS Job Department has been thoroughly supplied with every needed want and with the latest styles of Types, and every manner of Job Work can now be done with neatness, dispatch and cheapness.

We can furnish at short notice BLANKS.

BILL HEADS, LETTER HEADS, CARDS, PROGRAMMES, HANDBILLS, PAMPHLETS, POSTERS, CHECKS, DRAFTS, &c.

TO OUR SUB-CRIBERS.

Under the new postal law, which goes into effect on the first of January, 1875, we will be required to prepay the postage on the News. This will add much to the expense of publication, but NO ADVANCE will be made in the subscription price on either our DAILY or WEEKLY. The price, as heretofore, will be :

DAILY:

One year, (postage paid) \$7.00. Six months, 3.50. 2.00. Three WEEKLY:

One year, (postage paid) \$2.00. Six months,

This will prove quite a reduction is the price of the NEWs, as the postage now paid by subscribers is \$1.20 upon the Daily, being virtually a reduction to that extent. This, with will make it the cheapest paper in the State.

Under the new system the eash plan will be rigidly enforced, as we cannot afford to send the paper on credit and pre-pay the postage, and all subscriptions not renewed by the first of January will be promptly discontinued We hope every subectiber will promptly renew.

JORDAN STONE. Manager.

THE internal revenue tax bill introduced in the U.S. House of Representatives proposes to abolish all internal revenue taxes except those upon distilled spirits, fermented liquors and tobacco, snuff and cigars, and increase the tax on distilled spirits to eighty cents per gallon. It also repeals the second section of the act of June 6, 1872, which made n reduction of ten per cent. on the articles therein enumerated, thus restoring duties on said articles to what they were prior to the passage of that act.

THE text of the bill for specie payment, which passed the U. S. Senate Tuesday night by a strict party vote, is published in another column. It is nothing more than a compromise between the inflationists and hard money men, and is not satisfactory to either. As a sop to the inflationists, it permits free banking, retiring \$80 of Treasury notes for each \$100 of bank notes placed in circulation, and to cajole the hard money men it provides for the resumption of specie payments on the first of January, 1879. In the meantime an attempt is to be made to substitute silver coin for the fractional currency. Few are sanguine enough to believe that specie payment can be resumed through the imperfect agency of this bill.

## THE STATESVILLE LAND.

MARK. The crowded condition of our advertising columns has prevented us from giving insertion to the prospectus of our valued cotemporary, the Statesville Landmark. We regret the fact, because the News is greatly the debtor of the Landmark for numberless kindnesses shown it, which it is sincerely desirons of reciprocating. Despairing of any such speedy relief from demand upon our advertising space, as will give us an opportunity to give the prospectus early publication, we adopt the method of inviting the attention of our readers, who may have business in Piedmont North Carolina, to the facilities and advantages offered them by the Landmark. The paper has a large and steadily increasing circulation in that fertile and productive section, and no better medium of communicating with that people could be chosen.

The Landmark is edited with manliness, independence and ability, and its selections are made with critical taste and judgment. It is a model of neatness typographically ; and is, in its make up generally, an honor to North Carolina journalism and a credit to the tact and abilities of its proprietors. Persons desir ing the establishment of business relations can address Messrs. Hussey & MALLORD, Editors and Proprietors, Statesville, N. C.

The communication of our valued correspondent "Northampton" shall have speedy publication. Our celumus have been too much crowded to admit it heretolore. It is good, however, and will keep.

From statistict prepared from the result of the late elections, it appears that the following are the State Governors and Legislatures elected and their politics : Governors.

Democrats, 20 | Democrats, 21 Republicans, 15 Republicans, 13 Independent, 2 Independent,

WE invite attention to the letter in another column of Col. Joen W. CUNNINGHAM, former Senator from Person county, upon the Convention question. While Colonel Cux-NINGHAM acknowledges the great necessity for a changed Constitution. and does not believe in the legislative mode of amending, he yet doubts the propriety of calling a Convention until after 1876.

THE Hillsboro Recorder, referring to the restriction measures in the Convention bill of Mr. MEANS, published by us vesterday morning,

savs: "This, it seems, to us, should disarm all hostility to the measure, since those most interested in the framing of a new Constitution (the people) have primary control over its fundamental features, and of course can exclude all that is detrimental to their interests or insert whatever is to their advantage."

ROBERT DALE OWEN, the celebrated spiritualist, having given the sanction of his name to the genuineness of the materialization of the spirits, as exhibited in the celebrathe recent enlargement of the NEWS, | ted "KATIE KING" seances, and having become convinced that the pretended appearance of the spirits, at said seances, was a delusion, has made public his conviction to that effect, withdrawing the expression of faith contained in his article to the Atlantic. So passes away another man and delusion.

> THE Editor of the Piedmont Press, because he refused to publish a communication of a personal character, has been accussed of being subsidized, to which he replies in the following lacenie style :

"As to the question, then, whether the Press is a subsidized paper, we unhesitatingly answer that it is. It is subsidized by about 800 as respectable subscribers as any newspaper in the Southern States can boast, tho' we must confesss that about 300 of them are rather slow sending in their corruption fund, and if they don't send in that little \$2.00 subsidy by the 1st of January, they will no longer be subsidiaries of the Piedmont

THE editor and proprietors of the Daily Commercial Reporter, an evening paper started in the city of Wilmington about four months ago, announces in the issue of Monday the suspension of the enterprise. They assign as the cause of the failure the severe stringency in the money market, and the consequent inability of the people to give them an adequate support.

We sincerely regret the necessity of this suspension, as we had hoped that the business of our 'City by the Sea" had so increased as to render the success of an evening journal probable. The gentlemen connected with the Reporter carry with them in their retirement, the best wishes of the press of the State for their well-doing in any business in which they may engage.

## THE STATE EXECUTIVE COM-

We are requested to call the attention of the members of the State Executive Committee of the Conservative party to the call for a meeting of the Committee in this city, on Wednesday, the 20th day of January next. The State Committee is composed of the Executive Committees of the several Congressional Districts; and the interests of the party imperatively demand the attendance of every member who can possibly be present. Matters of vital importance will come up for consideration.

We are requested further to say that the members of the Couservative press of the State are cordially and earnestly invited to be present, to assist the State Committee in its deliberations.

Let us have a full meeting and a frank, free conversation as to what is best to be done to give permanency to the triumph of August last.

Mr. Barnum is nothing if not magnificent. His announcement of "Blue Beard," as his great holiday ittraction, will revive the interest which the opening nights of the Hippodrome evoked. For colossal processions, colossal beauties, colossal arlesques,a colossal castle rising out of the ground, colossal jokes and clowns, Mr. Barnum still remains unapproachable.

The South Carolina Railroad Company are negotiating for the lease of the Charlotte, Columbia and Augusta Railroad, which, the Courier and News thinks, is all that is needed to restore to Charleston the trade that has been taken from her by her rivals since the war.

A queer old chap has nicknamed his daughter Misery, because she loves company.

Col. John W. Cunningham, of Person. Upon the Convention Ques-

Person Co., N. C., Dec. 9, 1874. Col. C. E. PARRISH-My Dear Sir: My reply to your favor has been asked the views of the people of Person county on the important subject of your communication. Not supposing that my own convictions were of much importance, and having never entered public life but from a sense of duty, and at the earnest solicitation of my fellow-citizens, I have not ventured to appear in print upon the grave question of constitutional reform now committed to the wisdom of the Leg islature; but I have decided views on the subject in all the aspects in which you present it to my consideration, and therefore 1 will answer freely and as concisely as I can the questions which you propound.

First, I am firmly of opinion that the best interests of all classes of cur people demand changes in our Constitution. My views now are the same that I expressed in the last Legislature, and I need not enlarge on this branch of the subject. Second, I prefer to see amend-

confusion by the results of its actions. Great abuses may arise from the exercise of the functions of ordinary legislation with those of framers of constitutions by the same persons, and in the same body; and when the charter which defines and limits the powers of all officers of the State is to be reformed, those deputed by the people for this solemn act should be elected to that end only, and should not be in position to have their action on constitutional changes affected by considerations springing out of the complications and interests of legislation. Besides, when a constitution is to be formed or changed, the people should have their attention fixed on this subject: the work should stand out to public view isolated from all legislative enact-ments, and from all political and local issues, and it is one which should be considered as finished, when ratified, until the calling of another Convention. I would not take away the right of legislative amendment under certain formalities and guarantees, as experience shows that slight modifications may from time to time be demanded, and which would not justify the expense of a Convention; but it is plain that frequent and serious changes by the legislative method will involve the whole organie law in confusion, and will in the end place the Constitution which should be brief, explicit and simple,

common mind and make it a subject of perpetual litigation. Third. It seems to me that the Convention called to amend the pre-sent Constitution should be limited; there are certain very sensitive ques tions involved in the movement, and I do not believe any Convention that could be elected would injuriously meddle with these, or even think of such a thing. I would nevertheless give assurances by the act calling the Convention that the Convention that the friends of this great measure are very far from desiring the Homestead exemption, or to restrict the rights of the colored

Fourth. I would not call a Convention now; at least not until we have more evidence that the people are prepared to understand and appre-ciate the movement. It is known that prejudices against this much needed enterprise have been carefuldiligently tered by those interested in preventing reform-and while the false impressions made are wearing away, I doubt if the time has come to risk at effort; and we all know that a fail ure would greatly retard the good work and give strength to the opponents of good government. I dislike to give advice in the premises, for l am only a plain, private citizen, but as you call for my opinion, I would suggest, with all proper deference, that the subject be postponed till after

In reply to your question as to the lews of the people of Person county, I would say that I believe they are expressed above, at least those of a jority of our Conservative friends We fear that agliation at present will postpone the very end in view, the a corrupt and odions rule; the hope of the country is in the Democratic party, and for the sake of the country we should enter on nothing that may endanger the success of this party of liberation and conservatism. now in a fair way to gain the power necessary to the full discharge of its great mission; and if I were sure it. would triumph in 1876, I would be willing to submit until then to even greater burdens than these that we

But while I have decided convictions as to the proper course of policy to be pursued at this time, I am prepared to listen with respect and deference to those who honestly entertain opposite opinions; and perhaps the best thing that the friends of the country can now do is to freely interchange views on the vital subject of constitutional reform, and that whatever plan of action is adopted may be begun with harmony of counsel and pursued with united efforts.

"Divide and conquer," has been the maxim of tyrants from the beginning; united the Democracy wil stand, and with its success are linked the best interests of the country.

And, as you have called me out, I feel it to be my duty to speak my mind fully and frankly, and therefore, while I suggest that we hasten slowly that we may go surely towards the greatend of constitutional reform, I would earnestly appeal to all patri-ots to stand together, and under no circumstances to permit themselves to be divided from each other by minor matters, but ever to keep in view their common mission. deliverance of the country from corruption and oppression

With high regard, I am truly yours.

JNO. W. CCNNINGHAM. The steamer Japan, burnt off Hong Kong last Friday night, was the tenth vessel the Pacific Mail Steam ship Company has lost since 1852. The steamer was first discovered to be on fire about eleven o'clock on Thursday evening, the fire being located over the boiler. The vessel was then one hundred and fifty miles from Hong Kong. After two hours spent in fruitless efforts to get the ire under control the captain decided to abandon the vessel, and at one o'clock on Friday morning all hands were transferred to the boats. remained about the vessel until noon of that day, when all proceeded for Swatow. While this enterprise is not conducted under the direct auspices of any Lodge, yet its object is to aid that noble institution, the Oxford Orphan Asylum, Which was established by the Grand Lodge of the State, and the management is entirely in the hands of members of the Order.
The object is exclusively for the benefit of the Orphan Asylum and the Committee deem it unnecessary to make any extended appeal to the people of North Carolina in behalf of an institution which is so worthy of their support. Louisiana in the Senate cancu. The caucus of Republican Senators yesterday lasted for several hours, and, in fact, did not adjourn until after dark. As soon as it was called to order Senator Morton submitted a resolution declaring that the entire Republican ticket was elected, both as regards the executive and Legislative departments, in Louisiana, and declaring, in effect, that Senator Pinchback is entitled to his seat as a consequence of the legality of the election of the Legislature. As soon as this proposition was submitted Messrs. Edmunds and Frelinghuysen interposed serious opposition, and ob jected to the consideration of the resolution without a division. They agreed that Gov. Kellogg was elected Governor, but insisted that the question of the election of the Legislature

no conclusion reached. The caucus finally adjourned to meet to-day as soon as an adjournment of the Senate can be effected, when it is expected that a compromise will be secured. This compromise will be a declaration that the Kellogg government is entitled to recognition so far as the executive department is concerned. The effect of this will be to deprive Pinchback of his seat; but it is not expected that either House will be able to act conclusively, one way or the other, before the final ad-journment. MANUFAC URERS OF

LIQUID ENAMEL PAINT. . BRADLEY'S PATENT

MADE FROM Pure h te Lead, Linseed Cil and Zinc, and Always Ready for Use.

READ THE FOLLOWING TESTINONIALS: From Prof. W. G. Simmons, Wake Forest College, North Carolina. WAKE FOREST COLLEGE, N. C., October 4, 1873. Mr. C. P. Knight—Dear Sir; We have for several months been using your Bradley's Patent Enamel Pattent our College Building, and are well pleased with it. Though it was applied by one having no experience in such work, yet we have a good job. We shall continue to use it—believing that in point of economy, durability and facility of application, it is superior to any other pigment offered in the market.

W. G. SIMMONS.

From Messrs, Engelhard & Saunders, Editors and Proprietors Journal. WILMINGTON, N. C., December, 26, 1873. We desire to call especial attention to the advertisement of "Bradley's Patent Enam-i Paint," We can recommend it from a knowledge of its merits. Some of the employees of this office having purchased some of this paint from Mr. C. P. Knight, of Battinore, have us dit and speak in the highest terms of it, after a trial of several months. While this as durable as ordinary paint, it has a much finer finish, and its cost and convenience will recommend it to all in need of paint.

From S. McGill, M. D. THE PLAINS, FAQUIER Co., VA., Feb. 6, 1873. THE PLAINS, FAQUIER Co., VA., Feb. 6, 1873.

Mr. C. P. Knight—Sir: The paint came safe to hand as ordered, 2 kegs, 5 gallon each, and 3 buckets, I gallon each. As practice was sick, I dit the job myself. Two weeks (not constant work) completeds, e house, two c ats; the last coat I applied thick, and it is now generally conceded that, for "enamel," like hardness, and body and harmony of colors, there is not a hand-souger j h in the place. I have saved sixty-five dollars by the operation—which is an item just now with the Southern people. It should be generally adepted in this state. Any country lad c in apply it. I have never disbled in such stock as "testimonials," but I fel so for riby the great adaptability of your Enamel Paint" to the wants of our people—in excellency of material, in teanty of color, and in the fact of its being "ready mixed," that I give you permission (if it is desirable to you) to make what use you think proper of this letter.

Very respectfully and truly.

VANTHINE! A RESTORATIVE The Best Hair Dressing Ever Known.

CHARLOTTESVILLE, VA., June 12, 125.

Dear Sir: -I have used the Xanthine for one year, and find it answers the purpose it is prepared for. I had used other preparations for the same purpose, viz: the restoration of the hair to the natural color; but was compeled to abanden them, because they attected my system, gave me rheuma ism and neuralgia. Xanthine, however, has not had this effect; on the contrary, has been beneficial in this respect. Hoping that you may be successful in its sale.

Lam your truly.

At a suggestion and presentation of a friend, I have used one bottle of Professor Hertz's Hair Resterative, "Xantaine." It has accomplished in a very brief time and without any perceptible unpleasant or injurious offect, all that is claimed for it as a restorer of the natural color of hair, turning gray. C. H. READ.
